

About Us

Mondjila Project Advisory and Management is a 100 % Namibian registered and multi-disciplined advisory and project management firm. We support governments to attract private sector investments, by identifying, structuring, and marketing attractive PPP projects that have the potential to unlock economic activity, create employment and develop sustainable infrastructure. Using international best practices, and applying tools, techniques, and local flavor, our professional team of experts guide public offices through the intricacies of identifying and developing tailor-made investment opportunities.

Our Vision Statement

To be the leading Project Advisory and Management Firm on the Continent.

Our Values

Quality, Integrity, Reliability, Innovation, Respect

Our Mission Statement

Provide World Class Consultancy Services

Mondjila Quality Policy Statement

Mondjila Project Advisory and Management is a wholly Namibian registered Project Management Consultancy that specializes in the provision of project advisory as well as project management to project promoters, developers, architects, engineers, contractors, financial institutions and many other sectors.

We are committed to providing well customized project solutions following thorough analysis and understanding of our client requirements as well as conforming to all applicable requirements of the prestigious international Quality Management Standard, ISO 9001:2015.

Consistent with our commitment to quality, our corporate goals are:

- Customer satisfaction through operational efficiency and effectiveness by addressing real issues and developing bespoke solutions based on our experience.
- Compliance with all applicable legal and other interested parties' requirements to which we subscribe.
- Provision of products and services that the market depends on and which have a positive impact on society.
- Developing Mondjila into a more commercial and profit-making entity that is self-sustaining and to grow shareholders' value.
- Promoting high performance from staff members through maintaining a well-motivated and competent team.

The management of Mondjila Project Advisory is committed to the implementation of this policy in the interest of our employees and all relevant interested parties for sustainable business growth as well as continually improving our Quality Management System.

This policy will be communicated with the aim of ensuring understanding and application to all employees and is available to all relevant interested parties.

Furthermore, the policy shall be reviewed periodically for continued suitability and adequacy.

Panashe Daringo
